TO WHOM IT MAY CONCERN:

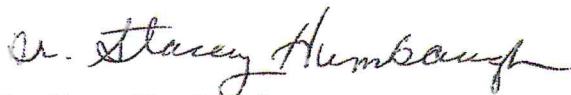

The Krempp Lumber Company was the general contractor for South Gibson School Corporation in our recent renovation of Gibson Southern High School. Without their assistance, our project would not have finished on time or under budget.

During the entire process, from planning to completion, Krempp was a stellar contractor, insuring the Corporation's money was spent only on needed improvements and not frills which were unneeded. Many times, Krempp offered up solutions to issues which allowed the taxpayers to both save money and have a quality facility. Krempp is an outstanding steward of taxpayer dollars.

Since the project, Krempp has worked with SGSC on other small projects and they have continued to offer excellent work, customer support, and a continued respect for the taxpayers of South Gibson School in the stewardship of taxpayer dollars.

Sincerely,

Kind regards,

Dr. Stacey Humbaugh
Superintendent of Schools

Mr. Timothy Armstrong
Assistant Superintendent of Schools

ADDITIONAL COMMENTS IN RESPONSE TO PAST PERFORMANCE QUESTIONNAIRE

February 4, 2014

In reference to the Gibson Southern High School Renovation Project, I would like to make the following comments:

Krempp Construction's performance was excellent. As with any renovation project that is being performed while the building is being occupied, the importance of coordination, communication, quality and responsiveness is paramount. John Krempp's management and leadership along with Krempp Construction employee's skills, experience, attention to detail and overall project management was excellent. Their ability to promptly address and resolve any type of constructability issue, employee or sub-contractor issue, product issue or design issue was always resolved with a positive relationship with the Owner and in the best interest of the Project.

I would highly recommend John Krempp as Project Manager and Krempp Construction for your Projects large or small.

Respectively submitted,

Scott Stenftenagel

To Whom It May Concern:

It is my pleasure as Superintendent of School, South Gibson School Corporation, to take this opportunity to write a letter of recommendation for The Krempp Lumber Company of Jasper, Indiana, general contractors for the Gibson Southern High School renovation project these last three years.

From the onset of the project, Krempp Lumber, including its management and personnel, has demonstrated the highest quality of professionalism and attention to detail. We were especially impressed with management's constant vigilance regarding cost cutting measures and quality control during the entire renovation. The project came in on time and under budget, and considering the magnitude of the renovation, we feel this is a direct result of Krempp's management style and work ethic. Materials and labor force used were of the highest quality in the construction business. Work crews on the project were polite, hard-working and met the pressure of deadlines and change orders in a professional manner, while maintaining a clean as possible work environment. The company prided itself on taking care of the smallest construction detail, a practice that provided amazing end results to all areas of the facility.

I would highly recommend Krempp Lumber Company as general contractor for a project of any size or design. Public response to the building has been very positive, especially in regard to the quality workmanship. Our working relationship with Krempp Lumber, and its owner, John Krempp, provided a smooth day to day operation of the entire renovation from conception to end, and we would mostly certainly recommend his company for any future construction projects.

Sincerely,

Dr. Stacey Humbaugh
Superintendent of Schools
South Gibson School Corporation
