Re: Chapter Room Renovation

Dear Bill:

The attachment is the punch list for the St. Meinrad Archabbey Chapter Room renovation. I found only a few minor issues. The room looks great. I am pleased with the final result.

As with the Archabbey renovation, it has been a pleasure working with you and your people. I have told you this many times in the past, and I will say it again. I am continually pleasantly surprised by what I call your company's non-contractor like approach to construction. It may sound odd, but I believe it to be one of the best compliments that I can give a contractor. You and your company are straight forward, honest, team oriented and believe in creating a quality product. This may sound like standard operating procedure to you; however, my experience has shown it not to be the case. I wish you, your family and your company the best that the future has to offer.

Sincerely,

Todd S. Rinehart
