RE: Krempp Construction, Inc.

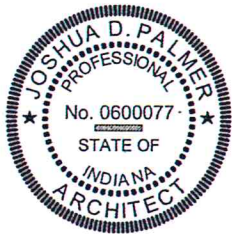

To Whom It May Concern:

Myszak+Palmer had the opportunity to work with Krempp Construction, Inc. on the Vincennes University Center for Applied Technology project for Vincennes University in 2010-11, and I would like to express my appreciation for the excellent service they provided.

As Architect and Project Manager for this project, I worked closely with Andrew and his staff to make sure the needs and standards of Vincennes University were either met or exceeded. The project was a challenging project and completed in a tight timeframe. Andrew and his staff truly acted as partners to not only myself, but the other trades, as prime bids were negotiated for several different construction trades.

The cooperation and collaboration Andrew brought to the table every day was greatly appreciated. This atmosphere resulted in a truly enjoyable project experience for everyone involved, a successful end result, and a very pleased Owner. I look forward to the opportunity to work with Andrew Krempp and Krempp Construction, Inc. again.

Sincerely,

Joshua D. Palmer, AIA, NCARB, LEED AP
